5. Where can I get the subject requirements and previous cut-off points for degree courses?

The information is available in the Programme Lists that can be downloaded from the Student's Portal.

6. How comes there are no 2025 cut-off points in the system?

Cut-off points are the cluster weight of the applicant who secured the last available vacancy in a course on merit during previous placement, after all applicants for the course were ranked from the highest to the lowest. Therefore, cut-off points for 2025 will be known at the end of the current placement process.

7. Which cut-off points should I rely on when checking programmes that I should apply for?

You should rely on the 2023 cut-off points. Ensure that your cluster weight as provided in the portal is higher than the 2023 cut-off point for the degree course in the university you are applying for.

8. Why is my provided cluster weight different from what I get when I calculate?

You cannot calculate your cluster weight correctly because you do not have your Performance Index (PI). The KUCCPS has calculated and provided cluster weights for all applicants using accurate data provided by KNEC.

You will be able to submit your application but securing a course is a competitive process determined by the qualifications of all the applicants and the number of available vacancies in the programme.
